As of August 2020, 50 communities in Delaware participate in the National Flood Insurance Program (NFIP). Of these communities, 11 (or 22%) participate in the Community Rating System (CRS).

Of the top 25 Delaware communities (in terms of flood insurance policies-in-force), 10 participate in the CRS. The remaining 15 communities present an outreach opportunity for encouraging participation in the CRS.

**Benefits of Joining the CRS**
* Activities credited by the CRS provide direct benefits to the community, including enhanced public safety, reduction in flood damage and environmental protection.
* Residents are reminded that the community is working to protect them from flood losses.
* Public information activities will build a knowledgeable constituency interested in supporting and improving flood protection measures.
* Money stays in the community instead of being spent on insurance premiums.
